

Education

Astana IT University – B.S. in Software Engineering (Expected: June 2025)

Bilim Innovation Lyceum (Kazakh-Turkish Lyceum) – Primary & Secondary Education

Technical Skills

Languages: C++, Python, JavaScript, TypeScript, Java

Frontend: React, React Router, Zustand, Bootstrap, SCSS, HTML/CSS, Figma

Backend: Node.js, Express.js, REST API

Tools & Libraries: Git, Webpack, Vite, Axios, TanStack Query, Docker

Databases: MongoDB, PostgreSQL

Testing: Jest (basic knowledge)

Soft Skills: Problem-solving, Adaptability, Communication, Team Collaboration

Professional Experience

Junior Frontend Developer / *Codexplore.kz (Remote)* | 01.2025 – Present

Key Contributions:

- Built and maintained reusable components (e.g. 404, Profile page) using React and React Router.
- Customized Ant Design components and improved accessibility (ARIA, keyboard navigation).
- Collaborated in bug fixing, cross-browser testing, and UI layout adjustments.
- Used Git and GitHub for code management and participated in code reviews.
- Worked closely with senior developers during weekly sprint planning using Trello.

Fullstack Developer (Freelance) | 10.2024 – 01.2025

Responsibilities:

- Delivered end-to-end web solutions for logistics and e-commerce sectors.
- Built RESTful APIs with Node.js, secured with JWT-based auth.
- Performed client communication, requirements gathering, and deadline planning.
- Optimized UX with lazy loading, input validation, and robust error handling.

Internship

MyFreedom Frontend Development Internship / *08.2024 – 06.2025*

Achievements:

- Completed portfolio projects with HTML, CSS, JS, and React.
- Applied Agile/Scrum principles in team-based projects.

- Gained strong command over semantic HTML, Flexbox, SCSS, React hooks, and async logic.
